

## SAMPLE LIST

- just a sample list
- item

## VERTICAL SPACING

### ITEMSEP

- the distance between these two
- items is now increased by 2em

### PARSEP

- adds 2em vertical spacing to a new paragraph

This is a new paragraph

- still a sample list

### TOPSEP

- just a sample list
- still a sample list
- 3em vertical space added
- on top and below the list with topsep
- just a sample list
- still a sample list

## PARTOPSEP

- a new paragraph always start after a list
  - hence the use of `\hrulefill`
- 

- when preceded by a paragraph break either with `\par`
- or a vertical space it acts like `\topsep`

- just a sample list
  - still a sample list
- 

- when it's not
- it does nothing
- just a sample list
- still a sample list
