- bulbasaur
- charmander
- squirtle

ENUMERATE

1. bulbasaur
2. ivysaur
3. venusaur

DESCRIPTION

BULBASAUR He can be seen napping in bright sunlight. There is a seed on its back. By soaking up the sun's rays, the seed grows progressively larger.

CHARMANDER The flame that burns at the tip of its tail is an indication of its emotions. The flame wavers when Charmander is happy, and blazes when it is enraged.

SQUIRTLE Its shell is not just for protection. Its rounded shape and the grooves on its surface minimize resistance in water, enabling SQUIRTLE to swim at high speeds.
